

CARL MOYER INCENTIVE GRANT PROGRAM

OFF-ROAD EQUIPMENT REPLACEMENT

APPLICATION

Please print clearly or type all information on this application and on all Attachments. (See Application Checklist on pg 3) Fill out one application for each engine or piece of equipment. All information necessary for completing this application is available in 2017 Carl Moyer Program Guidelines. This document can be viewed at: <http://www.arb.ca.gov/msprog/moyer/moyer.htm>.

Please note that additional information may be requested from the applicant in order to process this application. (See Application Checklist - Phase 2 on pg 3)

Purpose

This application is for incentive funds to offset the incremental cost of replacing off -road equipment with new equipment. All projects must achieve emission reductions beyond all regulatory requirements, and meets the minimum Carl Moyer Program eligibility criteria described in the latest edition of the 2017 Carl Moyer Program Guidelines.

Eligibility Criteria

To be eligible for funding, projects must meet the criteria described in the 2017 Carl Moyer Program Guidelines and all current Carl Moyer Program Advisories. These criteria include but are not limited to the following:

- Emission reductions obtained through Carl Moyer Program projects must not be required by any federal, state or local regulation, memorandum of agreement/understanding, settlement agreement, mitigation requirement, or other legal mandate.
- Projects must have a minimum cost-effectiveness of \$30,000 per weighed ton of NOx, ROG, and PM10 reduced calculated in accordance with the cost effectiveness methodology in Appendix C of the 2017 Guidelines. The Project selection process is competitive with the most cost effective projects to be given preference.
- Maximum Project Life:

Type		Project Life
Repower only (no retrofit)		7 years
Farm Equipment (all projects)		10 years ^(a)
Replacement and Repower to zero-emission		10 years ^(b)
Retrofit only		5 years
Replacement	Excavators Skid steer loaders Rough terrain forklifts	3 years
	All other non-farm (existing diesel only)	5 years
	All other non-farm (existing LSI only)	3 years

(a) Air districts are required to offer a ten year project life for farm equipment; however, applicants may request a project life fewer than ten years. Farm equipment is defined in Appendix B and does not include stationary agricultural equipment.

(b) Section C.2.(E) allows a maximum project life of ten years for zero-emission replacements.

- No emission reductions generated by the Carl Moyer Program may be used as marketable emission reduction credits, or to offset any emission reduction obligation of any person or entity.
- No project funded by the Carl Moyer Program shall be used for credit under any federal or state emission averaging banking and trading program.
- Funded projects must have at least 75 percent of their total activity for the project life in California (this requirement does not apply to marine projects).
- Emission reduction technologies must be certified/verified by the ARB for sale in California and must comply with durability and warranty requirements. For the purposes of the Carl Moyer Program, a technology granted a conditional certification/verification by ARB is considered certified/verified.

Eligible projects are those in which a new or used piece of equipment with an engine meeting the current Model Year California emission standard replaces an uncontrolled, fully functional off-road compression-ignition or large spark ignition piece of equipment that is to be scrapped.

Summary of Off-Road CI Equipment Replacement Funding Opportunities

Equipment Type	Subject to ARB Fleet Rule	Moyer Funding Opportunities ¹
Mobile agricultural equipment	No	Funding opportunities exist for engine repowers and retrofits.
Cargo handling equipment at ports/ intermodal rail yards	Cargo Handling Equipment Regulation ²	Very limited opportunities.
Most other off-road equipment (e.g. construction, mining, rental, airport ground support and other industries)	Off-Road Regulation ³	Small fleets: Opportunities exist through Dec. 31, 2025, after which fleet must show 100% compliance with the regulation Medium fleets: Opportunities exist through Dec. 31, 2019, after which fleet must show 100% compliance with the regulation
Portable diesel Engines	Portable Engine ATCM ⁴	Limited opportunities exist ahead of the fleet average requirements

¹ Limited opportunities means a fleet's compliance status with the ARB regulation must be determined. Contact air district Moyer Program staff or consult fleet rule Carl Moyer Implementation Charts at:

<http://www.arb.ca.gov/msprog/moyer/guidelines/supplemental-docs.htm> in addition to these guidelines.

² Regulation for Mobile Cargo Handling Equipment at Ports and Intermodal Rail Yards:

- **Submit all supporting documentation listed under *Phase 1: Application Documents*.**
- **Complete one application for each piece of off-road equipment.**
- **If the submitted application is incomplete, the application will be rejected.**

✓ Phase 1: Application Requirements

<input type="checkbox"/>	Completed application (signed & dated in ink)
<input type="checkbox"/>	Quote and specification sheet for the replacement engine/equipment signed and dated by the dealership/Vendor. <input type="checkbox"/> Owner is listed as buyer
<input type="checkbox"/>	EPA Certificate of Conformity and/or ARB Executive Order for replacement vehicle engine (<i>preferred</i>), which demonstrates the engine meeting current model year California emission standards.
<input type="checkbox"/>	"Two-for-One Option": If replacing two existing engines/equipment with one replacement engine/equipment, submit an application and the above information for each existing vehicle.

Phase 2: Grant Requirements (*After applicant has received an Award Letter*)

<input type="checkbox"/>	Existing (old) equipment ownership documentation (<i>SEE Ch.5 Sect. D. 4. E.</i>)
	<input type="checkbox"/> Bill of sale for the old equipment, and <input type="checkbox"/> Two years of documentation for at least one item from the list below. If a bill of sale cannot be provided, two items from the following list may be submitted in substitution: <ul style="list-style-type: none"> <input type="checkbox"/> Tax depreciation logs <input type="checkbox"/> Property tax records <input type="checkbox"/> Equipment insurance records <input type="checkbox"/> Bank appraisals for equipment <input type="checkbox"/> Maintenance/service records <input type="checkbox"/> General ledgers <input type="checkbox"/> Fuel records specific to the old equipment (To be used as evidence of California residency the fuel records must also identify the equipment owner)

<input type="checkbox"/>	Existing (old) equipment annual usage and operational documentation (<i>SEE Ch.5 Sect. D. 4. E.</i>)
	Participant provides one of the following showing previous year of usage: <ul style="list-style-type: none"><input type="checkbox"/> Maintenance/service records<input type="checkbox"/> Revenue and usage records that identify operational, standby, and down hours for the equipment<input type="checkbox"/> Routine inspections which document the operating condition of the old equipment (Occupational Safety and Health Administration or workplace required)<input type="checkbox"/> Other documents approved by the District
