**Woodsmoke Reduction Pilot Program
Acknowledgement of Training Form**

The Program requires an educational component to ensure that the new home heating devices, particularly wood stoves, are properly operated and maintained to maximize energy efficiency and achieve the lowest possible emission rates. With proper burning techniques and properly seasoned wood, the amount of wood used could be significantly reduced. While a new wood stove typically pollutes less than an old one, user operation is important for achieving emission reductions. Districts are required to obtain verification of training.

Homeowner's or Tenant's name:

Address where new device was installed:

Please Initial:

_____ I certify that I received the owner's manual for my new device.

_____ I certify that I received training from the Vendor/Installer on the operation of my new device per manufacturer instructions.

_____ I certify that I received training from the Vendor/Installer on proper wood storage and wood burning practices (if applicable).

Signature (Homeowner/Tenant): _____

Printed Name: _____

Date: _____

Signature (Trainer): _____
